

Allow me to preface this by saying that I do not even listen to XM Satellite Radio, and that I write this as an American, not an angry consumer. I am constantly shocked and appalled by the increasing trend of Americans (individuals who should respect and love all the rights and freedoms that America was built upon by the very fact that they live in this great country) attempting to tear those rights and liberties from other Americans. Censorship is supposed to be un-American, yet it rears its ugly head constantly. Limiting in any way what XM Radio is doing is tantamount to the worst of the shameful actions this country has inflicted upon itself. We are lovers of freedom, and in that regard, I urge you, as Americans, to reject the NAB's petition 04-160.

Thank you.
Gabe Smith
